-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☐ Responsive to communication(s) filed on 29 October 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

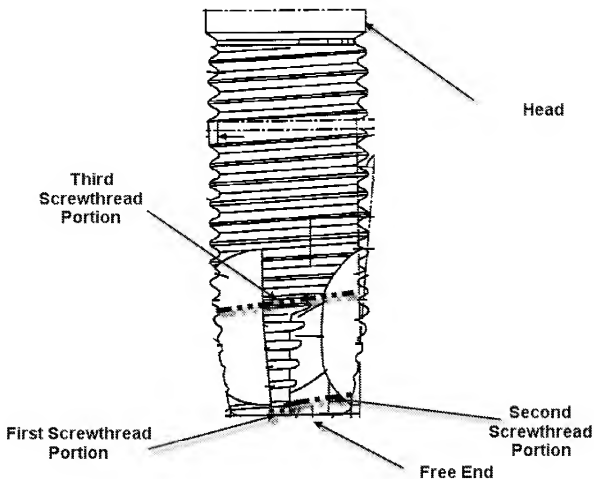

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 2-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Jomeus (U.S. Patent No. 6,196,842).

Jomeus discloses a bone screw having a screw head, shank and a thread formed on the screw shank of a plurality of turns characterized in that starting from the free end of the screw shank towards the head, a first screw thread portion with a smooth cutting edge extending toward the screw head, that a second screw thread portion extends from the first screw thread toward the screw head and is formed in its cutting edge with recesses. The recesses of the second screw thread portion relative to the angular length in circumferential direction are increased compared to the second screw thread from the free end because the screw gets wider in diameter. There is also a third screw thread portion extending from the second screw thread, which has recesses. The second screw thread and in the third screw thread every 360 degrees three recesses are formed (see Figure 2). The recess extends as a chord toward the screw shank from the cutting edges of the second screw thread portion and of the third screw thread portion and joins in an arc again the cutting edge. The screw shank is considered to be in cylindrical and tapered form (see Figure 1 below).

**FIGURE 1**

***Response to Arguments***

Applicant's arguments filed on October 29, 2007 have been fully considered but they are not persuasive.

Applicant argues that the first portion at the free end is actually formed with recesses comparable to those of the second portion according to the invention. This is not the case when looking at figure 1 above. The portions defined by the examiner are

much shorter than the portions pictured by the applicant. The portions defined here do not extend along one entire circumference, only a portion thereof. Therefor claims 2-13 are readable on Jorneus.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **MICHAEL J. ARAJ** whose telephone number is (571)272-5963. The examiner can normally be reached on M-F 8am-5pm.
